

The book cover features a dark, starry space background. At the top, there are several bright yellow and orange stars, some with faint orbital paths. In the center, the Earth is shown from space, with blue oceans and white clouds. Below the Earth, a volcano is erupting, with a bright orange and yellow lava flow spilling from its crater. The overall theme is Earth science and geology.

EARTH SCIENCE

(For Senior High School)

Zenaida T. Nucum, Ed.D.

TABLE OF CONTENTS

CHAPTER 1	The Origin of the Universe and the Solar System ..	1
	The Birth of the Universe	2
	Where Did the Big Bang Occur?.....	3
	Theories about the Universe	4
	The Milky Way Galaxy	6
	<i>Exercise 1. The Universe</i>	7
CHAPTER 2	The Planet Earth	9
	The Geocentric Universe.....	10
	The Heliocentric Universe	10
	Earth Systems	11
	Characteristics of Earth Necessary to Support Life...	12
	The Flow of Energy	13
	The Flow of Matter (Nutrient Cycles)	14
	<i>Activity 1. Concept Mapping</i>	16
	<i>Exercise 2. The Planet Earth and the Earth Systems</i>	17
	The Earth's Interior.....	19
	Surface Processes and the Earth's External Engine....	19
CHAPTER 3	Earth Materials and Resources: (Minerals).....	30
	Mineral Content of the Earth Subsystems	31
	Minerals and Rocks	31
	Atoms and Elements.....	32

	Chemical Bonding	33
	Elements in the Earth's crust.....	35
	The Silicon-Oxygen Tetrahedron.....	35
	<i>Exercise 3. Minerals</i>	41
	Physical Properties of Minerals.....	43
	Mineral Formation.....	47
	<i>Exercise 4. Properties of Minerals</i>	49
CHAPTER 4	Rocks	51
	The Rock Cycle.....	51
	Classification of Igneous rocks.....	52
	Chemical Composition of Igneous rocks.....	54
	Identification of Igneous Rocks.....	55
	Abundance and Distribution of Plutonic Rocks	57
	Summary:.....	57
CHAPTER 5	Volcanism and Extrusive Rocks	59
	Relationship to Earth Systems.....	59
	What is Volcanism?.....	60
	Eruptive Products of Volcanoes	62
	Why are Volcanoes Dangerous?	63
	Types of Volcanoes Based on Size, Shape and Composition	63
	Plate Tectonics and Volcanism.....	65
	<i>Exercise 5. Volcanism and Extrusive Rocks</i>	67
CHAPTER 6	Sedimentary Rocks	69
	Sedimentary Rocks	69
	Relationship to Earth Systems.....	69
	Formation of Sedimentary Rocks	70
	Transportation	70
	Types of Sedimentary Rocks.....	71
	Sedimentary Structures.....	72
	Plate Tectonics and Sedimentary Rocks.....	73
	<i>Exercise 6. Sedimentary Rocks</i>	75

CHAPTER 7	Weathering, Erosion and Transportation	77
	How Weathering Interacts with the Earth systems ..	78
	Types of Weathering	78
	Factors Affecting Weathering.....	79
	Soil Formation.....	80
	Factors That Influence Soil Formation.....	81
	Soil Profile.....	81
	Physical and Chemical Properties of Soil.....	82
	Soil Problems, Soil Conservation and Regeneration.	84
	<i>Exercise 7. Weathering and Erosion</i>	<i>87</i>
CHAPTER 8	Metamorphism and Metamorphic Rocks	89
	Factors Controlling Characteristics of Metamorphic Rocks.....	89
	Composition of the Parent Rock.....	90
	Temperature and Pressure	90
	Fluids	90
	Classification of Metamorphic Rocks.....	90
	Types of Metamorphism	91
	Hydrothermal Processes	91
	Hydrothermal Activity at Divergent Plate Boundaries.....	91
	Hydrothermal Activity at Convergent Plate Boundaries.....	92
	<i>Exercise 8. Metamorphic Rocks</i>	<i>95</i>
CHAPTER 9	Resources	97
	Environmental Impact of Coal Mining.....	99
	Oil and Natural Gas	100
	Recent Trends in Fossil Fuel Consumption.....	104
	Nuclear Energy	105
	<i>Exercise 9. Resources</i>	<i>111</i>
	Safety Features of Nuclear Power Plants	115
	Breeder Nuclear Reactors.....	115
	Alternatives to Fossil Fuel and Nuclear Power.....	116
	Renewable Energy Resources Which are Direct or Indirect Consequences of Solar Power	118
	Other Alternative Sources of Energy.....	120
	Resources, The Environment and Sustainability.....	121

CHAPTER 10	Water: A Vital Resource.....	122
	How the Activities of Living Organisms Affect the Hydrologic Cycle	125
	Parameters of Water Quality.....	125
	<i>Exercise 10. Water A Vital Resource.....</i>	129
CHAPTER 11	The Atmosphere.....	131
	Divisions of the Atmosphere	132
	Weather and Climate	133
	El Niño and La Niña.....	133
	What Causes This Shift in Weather over Such a Large Area of the Globe?	134
	Effects of Air Pollution	134
	Control of Global Warming.....	138
	How Can We Slow Global Warming?.....	139
	<i>Exercise 11 Air Pollution.....</i>	141
CHAPTER 12	Geologic Time Scale	143
	Determination of Relative Age.....	145
	The Standard Geologic Time Scale.....	145
	Isotopic Dating (Determination of the Absolute Age of a Rock)	146
	Age of the Earth.....	146
	Appendix A. Glossary.....	148
	Appendix B	150
	Appendix C.....	151
	Appendix D. The West Valley Fault	152
	Literature Cited	153
