## COLUMNS & DEPARTMENTS

### 6 EDITOR'S NOTE

#### A Study in Relief

Humans have used marijuana for ages, but scientific understanding of it is still green.

### 8 INBOX

Readers weigh in on driverless cars, microbes and forgotten pioneers of flight.

### 11 THE CRUX

Coming face to face with a dragon's secret defense; the quest to shed light on dark data; cows get a diet update to save the planet; dating Saturn's rings; and more.

### 24 VITAL SIGNS

#### Flight Risk

A woman gets off a plane and checks into the hospital. Is her sudden illness linked to air travel or something else?

BY TONY DAJER

### 28 ORIGIN STORY

#### A Matter of Life and Death

Our unique awareness of mortality may have evolved before we did.

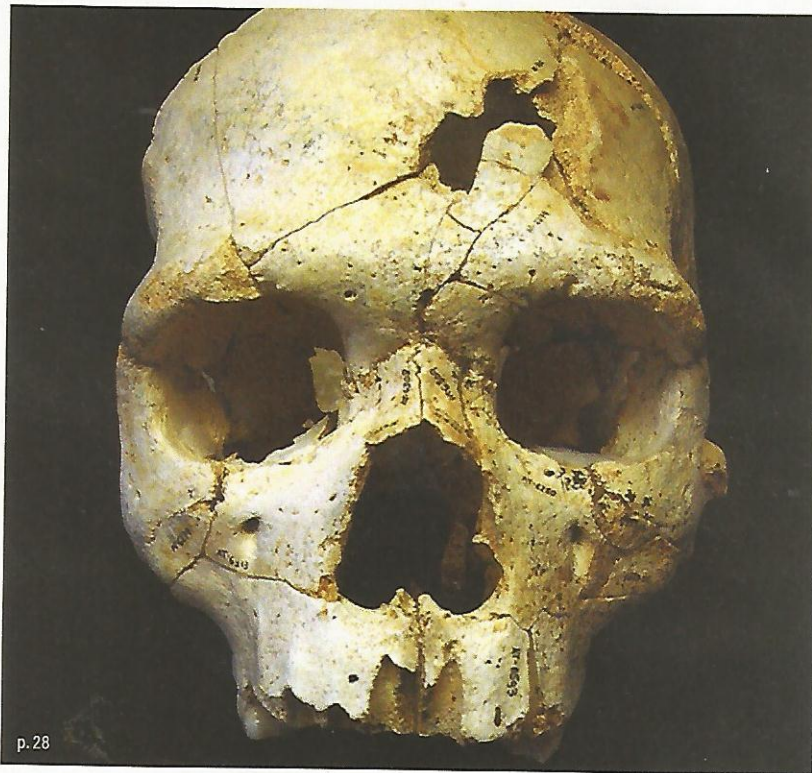

BY BRIDGET ALEX

### 66 MIND OVER MATTER

#### The Sound, the Fury and Me

The scratch of pencil on paper, the crunch of a salad eater, and other everyday sounds can enrage — or delight — the listener.

BY NATHANIEL SCHARPING

p. 28

p. 74

### 70 OUT THERE

#### Seeking Binary Sunsets

Would multi-star systems boost the chances of finding alien life?

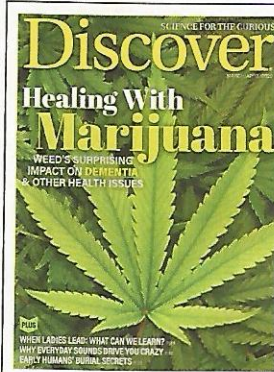

BY ERIKA K. CARLSON

### 74 20 THINGS YOU DIDN'T KNOW ABOUT...

#### Doors

Find out what the late Jim Morrison, some spiders and a pit of fire have in common.

BY GEMMA TARLACH
