<i>Introduction</i>	1
<b>1 Machinery Arrangements</b>	<b>3</b>
1.1 Choice of Optimum Engine Type	3
1.2 Layout Diagrams and Load Diagrams	7
1.3 Propulsion Machinery - Two and Four Stroke Engines	12
<b>2 Main Propulsion Machinery – Operation and Maintenance</b>	<b>18</b>
2.1 General	18
2.2 Running Gear	18
2.3 Turbochargers and Air Coolers	96
2.4 Fuels and Bunkering	107
2.5 Preparing for Sea & Arrival in Port	115
2.6 Watchkeeping and UMS Operation	119
2.7 Performance and Condition Monitoring	122
<b>3 Auxiliary Machinery</b>	<b>129</b>
3.1 Pumps	129
3.2 Centrifugal Separators	135
3.3 Heat Exchangers	145
3.4 Fresh Water Generator	150
3.5 Refrigerating & Air Conditioning Plant	154
<b>4 Boilers &amp; Boiler Water Treatment</b>	<b>164</b>
4.1 Auxiliary Boilers and Burners	164
4.2 Exhaust Gas Boilers	168
4.3 Boiler Maintenance & Inspection	173
4.4 Feed Water Treatment	177
4.5 Thermal Fluid Systems	180
<b>5 Electrical Machinery</b>	<b>181</b>
5.1 General	181
5.2 AC Motors and Generators	182
5.3 Batteries	184
5.4 Protective Devices	185
5.5 Loss of Power	186
5.6 Earth Faults	187
5.7 Hazardous Area	188
5.8 Shore Supply	189

## Contents

---

6	Waste Treatment & Disposal	191
6.1	Waste Generation	191
6.2	MARPOL Regulations	191
6.3	Waste Disposal	196
6.4	Oily Water Separator Systems	197
6.5	Sewage Plant	199
	<i>List of Abbreviations</i>	201
	Table of Conversions	202
	Index	203

# Index

---

## A

- A frames 87
- Abrasive wear 50
- Air coolers 103
  - cleaning 103
  - problems 105
  - tube leak 104
- Automatic Voltage Regulator (AYR) 182

## B

- Batteries 184
- Bearings 77–81
- Bedplates 86–93
- Boilers 164
  - auxiliary 164
  - blowing down 166
  - burners 167
  - exhaust gas 168
  - feed water 177
  - gauge glasses 165
  - inspection 173
  - problems 173–176
  - safety valves 174
  - shutting down 165
  - soot blowers 171, 172
  - thermal fluid 180
  - uptake fires 171–172
- Bunkering 111

## C

- CCAI 107
- Centrifugal pumps 131
- Centrifugal separators 129
- Cetane index 107
- Chocks 91, 93
- Clarifier - see centrifugal separators
- Compression ratio 16
- Condition monitoring 122–128
- Crankcase 83, 84
  - explosions 83
  - inspection 83
  - relief devices 84
- Crankshaft deflections 81
- Cut-off ratio 16

- Cylinder heads 18
  - defects 21
  - inspection 24
  - materials 19
  - removal 23
  - stresses 21
  - tightening 22
- Cylinder liners 47
  - cloverleafing 45
  - corrosive wear 49
  - inspection 54
  - lubrication 52
  - material 48
  - stresses 47
  - wear 49

## D

- Diesel cycle 16
- Distribution, electrical 181
- Draw cards 99

## E

- Earth faults 187
- Earth lamps 188
- Electrical machinery 181
- Emissions 193
- Engine rating 4

## F

- Four stroke engine 12–17, 98
- Fresh water generator 151
- Fuel injection pumps
  - helix control 62
  - maintenance 69
  - pressure curves 68
  - problems 66
  - valve control 61
  - YIT 64
- Fuel injectors 55
  - maintenance 59
  - problems 60
  - test rig 59
- Fuels 107
  - impurities 109
  - properties 107

# Index

---

## G

- Garbage record book 196
- Gear pumps 130
- Gears 93
- Generators, ac 182
  - faults 183
  - parallel operation 182
- Global Warming Potential (GWP) 156
- Gravity disc 137

## H

- Hazardous area 188
- Heat exchangers 145
  - cleaning 149
  - plate type 146, 147
  - tube type 146

- Incinerators 195
- Indicator diagrams 71

## L

- Layout diagram 7, 8, 10
- Load diagram 7, 11

## M

- MARPOL 191
- Mean effective pressure (mep) 6
- Montreal Protocol 155
- Motors, ac 184
  - faults 184
  - single phasing 186

## N

- NO<sub>x</sub> emissions 194
- Nozzle leakage 60

## O

- Oil analysis 125
- Oil mist detectors 84
- Oil pollution 191
- Oil record book 121
- Oily water separator 196

- Ozone Depletion Potential (ODP) 156

## P

- Performance monitoring 122--128
- Piston rings 41, 46
  - clearances 42
  - fitting and removal 46
  - maintenance and problems 44
  - material 43
- Pistons 35
  - cooling 35
  - lubrication 38
  - materials 36
- Planimeter 74, 75
- Pressure ratio 16
- Propeller curve 7, 9
- Pumps 129
  - centrifugal 131
  - gear 130
  - maintenance 129
  - reciprocating 129
  - screw 130
- Purifier - see centrifugal separators

## R

- Reciprocating pumps 129
- Refrigerants 15-4157
- Refrigeration plant 154
  - charging 159
  - leak detection 155
  - problems 162

## S

- Safety 18
- Scavenge fires 105
- Screw pumps 130
- Scuffing 51, 95
- Selective Catalytic Reduction (SCR) 195
- Separators 135, 144, 145, 197
- Sewage plant 199
- SOLAS 181
- SO<sub>x</sub> emissions 193

## T

- Thermal fluid 180

# Index

---

Tie bolts 87  
Turbochargers 96  
    cleaning 100  
    defects 102  
    deposits 100  
    lubrication 97  
    surging 98  
Two stroke engine 12--17, 98

## U

Unmanned Machinery Space 119  
    UMS checklist 121  
Uptake fires 171

## V

Valves 25  
    clearance 28  
    cooling 26  
    inlet and exhaust 25  
    maintenance 32--33  
    material 25  
    problems 32  
    rotation 26  
Variable Exhaust Closing (VEC) 29  
Variable Injection Timing (VIT) 64

## W

Waste 191--196  
Watchkeeping 125
