PHYSICAL EDUCATION FOR OPTIMIZED HEALTH TABLE OF CONTENTS 2017

Dedication	v
Preface	vi
Chapter 1: Energy Systems	
I. Aerobic Activities	1
a. Energy System	1
b. Glycolysis	2
c. Oxygen and Respiration	2
d. Pyruvate and Acetyl Coenzyme - A	2
e. The Krebs Cycle and the Electron Transport Chain	3
f. Breakdown of Lipids	3
g. Deamination of Protein	4
h. Production of ATP & Aerobic Exercise	4
i. Exercise 1: Energy Systems	5
 Chapter 2: Health Related Fitness	
a. Barriers to Physical Activity Participation	7
b. Risk Stratification Categories for Atherosclerotic Disease	8
c. The Physical Activity Readiness Questionnaire (PARQ)	8
d. Exercise 2: Physical Activity Readiness Questionnaire	9
e. Coronary Artery Disease (CAD) Risk Factors	10
f. Exercise 3: Risk Stratification for Exercise Participation	11
g. Exercise Response Indicators	12
h. Exercise 4: Heart Rate Monitoring	14
i. Measure of Intensity (METS)	15
j. Overexertion (Safety)	16
k. Health-related Fitness Parameters	17
l. Exercise 5: Computing Exercise Intensity	18
m. 2011 Compendium of Physical Activities	19
 Chapter 3: Sample Aerobic Activities	
a. Free Dancing	43
b. Recreational Sports Play	44
c. Jogging	44
d. Walking	45
e. Cycling	45
f. Walking the Dog	46
g. Conclusion	46
h. Exercise 7: Aerobic Exercise in Action	47

Chapter 4: Aerobic Activities for Degenerative Diseases	
a. The American College of Sports Medicine (ACSM) guidelines	49
b. Exercise in Hypertension	49
c. Aerobic Exercise for Hypertensive People	50
d. Exercise in Dyslipidemia	51
e. Aerobic Exercise for People with Dyslipidemia	52
f. Exercise for Obesity	52
g. Aerobic Exercise for the Obese and Overweight	53
h. Exercise in Metabolic Syndrome	54
i. Aerobic Exercise for people with Metabolic Syndrome	54
j. Exercise in Asthma	54
k. Exercise and Degenerative Disease	57
Chapter 5: Basic Exercise Physiology of the Bone and Muscles	
II. Resistance Exercise	
a. Muscles	59
b. Muscles of the Trunk	60
c. Muscles of the Upper Extremity	60
d. Muscles of the Lower Extremity	61
e. Muscles Hypertrophy	62
f. Bones	63
g. Exercise 8: Muscles of the Trunk	65
h. Exercise 9: Muscles of the Upper Extremity	66
i. Exercise 10: Muscles of the Lower Extremity	67
Chapter 6: Safety and Injury Management	
a. Domains of Safety	69
b. Safety in Facilities & Equipment	70
c. Energy Resources & Establishments	71
d. Progression with Resistance Exercise	71
e. Injury Management	71
f. Exercise 11: Safety Management	73
g. Exercise 12: Injury Management	74
Chapter 7: Sample Resistance Exercise	
a. Strategies to Reduce Hazards during Exercise	75
b. Aerobic versus Resistance Exercise	75
c. Resistance Exercise in School	76
d. Resistance Exercise in Home	78
e. Delayed-Onset Muscles Soreness (DOMS)	80
f. Exercise 13: Resistance Exercises in School and at Home	81
Chapter 8: Resistance Exercise for Degenerative Diseases	
a. Exercise in Muscle Atrophy	83
b. Exercise in Diabetes Mellitus	84

c. Exercise in Arthritis	86
d. Exercise in Osteoporosis	87
e. Exercise 14: Resistance Exercise in Degenerative Diseases	89
Chapter 9: Rest and Recovery in Resistance Exercise	
a. Immediate Recovery	91
b. Short-term Recovery	91
c. Training Recovery	91
d. Muscle Damage in Training Recovery	92
e. Tapering	92
f. Methods for Enhancing Recovery	92
g. Exercise 15: Rest and Recovery	94
Chapter 10: Eating Habits, Health and Performance	
III. Healthy Behaviors	
a. Types of Eating Based on Personality	95
b. Hydration and Electrolyte Balance	96
c. Eating for Physical Performance	100
d. Conditioning Strategies for Healthy Eating	102
e. Exercise 16: Eating Habits and Health	103
Chapter 11: Sleep	
a. Sleep Patterns	105
b. Sleep Stages	106
c. Sleep Disorders	107
d. Exercise 17: Sleep	109
Chapter 12: Stress Management	
a. Cortisol	111
b. Cortisol's Effect on the Body	112
c. Exercise in Plasma Cortisol Management	113
d. Practical Stress Management	114
e. Exercise 18: Stress Management	115
Chapter 13: Habits as a Risk Factor	
a. Unsafe Water, Sanitation and Hygiene (WSH)	117
b. Summary of Pathways of Faecal-oral Disease	118
c. Strategies During Interface	120
d. Occurrence of Coronary Artery Risk Factors	121
e. Exercise 19: Unsafe Water, Sanitation and Hygiene	123
Chapter 14: Anatomical Factors of Sports Performance	
IV. Individual & Dual Sports Events	
a. Anthropometry	125
b. Somatotype	127
c. Muscle Fiber Pre-Disposition	128
d. Exercise 20: Performance Potential of Filipinos	129

Chapter 15: Motor Skills	
a. Landing	131
b. Rotation	132
c. Balance	132
d. Throwing	133
e. Catching	134
f. Walking	134
g. Running	134
h. Jumping	135
i. Skipping	135
j. Striking	135
k. Assessment	136
l. Exercise 21: Motor Skills in Sports	137
Chapter 16: Conditioning for Sports	
a. Anaerobic Exercise	139
b. Aerobic Conditioning Exercises	141
c. Training Specificity	141
d. Weight Training	142
e. Time	142
f. Exercise 22: Conditioning for Sports	143
Chapter 17: Nutrition	
a. Balanced Diet	145
b. Adolescent Nutrition	146
c. Lifestyle-driven Diet	147
d. Exercise 23: Nutrition	149
Chapter 18: Individual Roles	
V: Team Sports	
a. Drafting	151
b. Principles of Individuality	152
c. Individual and Role Matching	153
d. Exercise 24: Individual Roles	155
Chapter 19: Cohesion	
a. Coaching Behavior and Team Cohesion	157
b. Task Cohesiveness and Team Success	157
c. Team Building Program	157
