# TABLE OF CONTENTS

---

PREFACE.....	vii
--------------	-----

## UNIT 1

### THE NATURE OF RESEARCH

CHAPTER 1	What is Research? .....	2
CHAPTER 2	Different Types of Research.....	15
CHAPTER 3	Ethics in Research.....	33
CHAPTER 4	Research Title, Sources, and Considerations.....	45
CHAPTER 5	The Introduction.....	61
CHAPTER 6	The Statement of the Problem.....	77
CHAPTER 7	The Scope and Delimitation and the Significance of the Study .....	89

## UNIT 2

### REVIEW OF LITERATURE

CHAPTER 8	The Review Process .....	104
CHAPTER 9	The Standard Styles of Writing .....	117
CHAPTER 10	Research Framework.....	129
CHAPTER 11	Related Literature .....	143
CHAPTER 12	Related Studies .....	161

**UNIT  
3****CONDUCTING QUALITATIVE RESEARCH**

<b>CHAPTER 13</b>	Methodology and Design for Qualitative Research .....	174
<b>CHAPTER 14</b>	Sampling for Research.....	191
<b>CHAPTER 15</b>	Data Collection.....	207
<b>CHAPTER 16</b>	Validity and Reliability .....	227

**UNIT  
4****ANALYZING THE MEANING OF THE DATA  
AND DRAWING CONCLUSIONS**

<b>CHAPTER 17</b>	Drawing Patterns and Themes .....	242
<b>CHAPTER 18</b>	The Formulation of the Summary of Findings, Conclusion, and Recommendations .....	267
<b>APPENDICES</b>	A. Preparation of the Final Copy of a Qualitative Research Thesis .....	279
	B. Sample Thesis Proposal – “The Challenges and Coping Strategies of High School Students With Single Parents” .....	284
	C. Evaluation Tools for Research Proposal Defense .....	286
	D. Guide to the Thesis Defense .....	290
	E. Evaluation Guide for the Thesis .....	292
<b>GLOSSARY</b> .....		295
<b>BIBLIOGRAPHY</b> .....		303
<b>INDEX</b> .....		313

# INDEX

## A

- Academic dishonesty, 39
- Accessible population, 192
- Accidental sampling
  - See Convenience sampling
- Action research, 18, 180
- American Psychological Association, 118, 120-122
- Analytic reading, 107
  - defined, 107
  - guidelines for, 107
- Annotating, 112-113
  - defined, 112
  - guidelines in, 112

## APA

See American psychological association

## APA style

See American psychological association

Artistic research, 17

Attributes, 90

## B

- Basic interpretative qualitative study, 26
- Basic social process, 180
- Bias, 92
- Bracketing, 177

## C

- Calmorin's formula, 194
- Case study design, 179
  - characteristics of, 179
  - defined, 179
- Categorical variables, 91
- Causal design, 18
- Central question, 79
  - defined, 79
  - sample script for, 82
- Chicago style, 122-125
- Cluster sampling, 197
- Coding, 247

- Cohort design, 19
- Comparative reading, 107
  - defined, 107
  - guidelines for, 108
- Completion type, 217
- Comprehensibility, 232
- Conceptual framework, 130
- Conclusion, 148, 272
- Concurrent validity, 229-230
- Constant comparison, 180
- Continuous variables, 91
- Construct validity, 229
- Content analysis, 179, 251
  - defined, 251
  - guidelines in, 252
- Content validity, 229
- Convenience sampling, 197
- Copyright, 38-39
- Criterion-related validity, 229
  - defined, 229
  - types of, 229-230
- Critical qualitative research, 25
- Cross-sectional design, 19

## D

- Data collection, 7, 176-177, 208-221
  - characteristics of, 218
  - defined, 7
  - methods used in, 208-221
  - scales used in, 218-219
- Deductive grounded theory, 180
- Delimitation of the study, 64, 91-95
- Dependent variable, 90
- Descriptive design, 18
- Discourse analysis, 25
- Discrete variable, 91
- Documents, 23

- E**  
 Element, 192  
 Elementary reading, 106  
 Emergent code, 247  
 Equivalent test  
   *See* Criterion-related validity  
 Ethnographic study, 23  
 Experimental design, 18  
 Exploratory design, 18  
 Eye-balling, 251
- F**  
 Face validity, 229  
 Factor-isolating question, 80  
 Factor-relating question, 80  
 Fair use, 40  
 Fishbowl method, 195  
 Framework, 130
- G**  
 Grounded theory  
   design, 179-180  
     characteristics of, 180  
     defined, 179  
   study, 24  
 Group interview, 177, 210-211  
   defined, 177, 210  
   types of, 211
- H**  
 Highlighting, 111-112  
 Historical  
   design, 178  
   study, 23, 178  
     defined, 23, 178  
     external criticism, 24, 178  
     internal criticism, 24, 179  
     sources of data of, 23-24, 178  
 Hypotheses, 7
- I**  
 Incidental sampling  
   *See* Incidental sampling  
 Independent variable, 90  
 Indicator, 144  
 Individual interview  
   *See* Interview  
 Inductive approach (grounded theory), 180
- Industrial property, 38  
 Instrument  
   *See* Data collection  
 Intellectual Property Code of the Philippines, 38-39  
 Intellectual property rights, 38  
   categories of, 38  
   defined, 38  
 Internal consistency, 231  
 Interview, 176, 208  
   defined, 176, 208  
   types of, 209  
 Interview schedule, 209  
 Introduction, 63-65  
   elements of, 63  
   formulation of, 64-65  
 IPO model, 113
- J**  
 Judgmental sampling  
   *See* Purposeful sampling
- K**  
 Key informants, 23
- L**  
 Life histories, 208  
 Likert scale, 218  
 Limitation of the Study, 91  
 Linearity, 232  
 Literature review, 7, 106, 146-148  
   defined, 7, 106, 146  
   elements of, 146-147  
   format of, 147-148  
   practical tips in writing, 148  
   purposes of, 106  
   stages of, 147  
   steps in, 109  
   strategies in, 111-113  
 Logic check, 251  
 Logical validity  
   *See* Face validity  
 Longitudinal design, 19
- M**  
 Major variable, 47, 144  
 Meta-analysis, 181  
   characteristics of, 181  
   defined, 181

Method, 176  
Methodology, 176  
Mixed-method design design, 19  
MLA  
    *See* Modern Language Association  
MLA style  
    *See* Modern Language Association  
Modern Language Association, 118-120

## N

Narrative analysis, 24-25  
    common types of, 25  
    defined, 24  
Natural context, 22  
Natural groups, 211  
Non-probability sampling, 197  
Non-researchable question, 79  
Non-scientific sampling  
    *See* Non-probability sampling

## O

Observation, 177, 211-216  
    advantages of, 215  
    defined, 177, 211  
    disadvantages of, 215  
    improving skills in, 215  
    types of, 215  
Observation checklist, 211  
Observation guide  
    *See* Observation checklist  
Open coding, 179  
Oral reports, 23

## P

Parameter, 192  
Participatory action research, 180  
Peer-reviewed journal, 145  
Phenomenological study, 22, 177-178  
    characteristics of, 178  
    defined, 22, 177  
Plagiarism, 5, 38  
    acts of, 38  
    defined, 5, 38  
    tips in avoiding, 39  
Population, 192  
Postmodern research, 25-26  
Precision, 232  
Predefined code, 257  
Predictive validity, 230

Previewing, 111  
Primary sources, 23, 178  
Probability sampling, 195  
Psychological narrative analysis, 25  
Public domain, 40  
Purpose of the research, 6  
Purposive sampling, 198

## Q

Qualitative data analysis, 244-260  
    defined, 244  
    processes involved in, 245-257  
Qualitative research, 19, 20-28  
    characteristics of, 22  
    common types of, 22-26  
    defined, 19, 20  
    methods used in, 176-177  
    strengths and weaknesses of, 26-28  
    value of, 22  
Quantitative research, 19, 20  
Question, 216  
    types of, 217  
    wordings of, 217-218  
Questionnaire, 177, 216  
Quota sampling, 198

## R

Range, 232  
Reactivity, 231-232  
Reading, 106-108  
    types of, 106-108  
Recognition type question, 217  
Recommendations, 273-274  
Refereed journal, 145  
Related literature, 143-144  
Relevant theories, 131, 133  
    defined, 131, 133  
    parts of, 133  
Reliability, 231-232  
    defined, 231  
    methods in the establishment of, 231-232  
Relics and artifacts, 23  
Research, 4-6, 9-11, 35-36, 37-40  
    characteristics of, 4-6  
    defined, 4  
    ethical codes and policies for, 35-36  
    general forms of, 17  
    goals of, 10-11  
    importance of, 9-10  
    importance of ethics in, 35

Researchable questions, 79-80  
 Research approach  
     *See* Research design  
 Research design, 17, 176-181  
     defined, 17, 176  
     examples of, 18-19, 183  
     purpose of, 17  
     stages of planning, 182  
     steps in planning, 182  
 Researcher, 8  
     roles of, 8  
 Research foundation, 6  
 Research in the humanities, 17  
 Research methodology, 7, 176  
     defined, 7, 176  
 Research paper, 7-8  
     outline of, 7-8  
 Research paradigm, 6  
 Research participants, 36-37  
     rights of, 36-37  
 Research problem, 6, 49-51  
     considerations in formulating, 50-51  
     defined, 6  
     sources of, 49  
 Research question, 7, 79-82  
     defined, 6  
     guidelines in formulating, 79, 81  
     types of, 79-81  
 Research title, 47  
     characteristics of, 47  
     defined, 47  
 Research writing, 37, 118-124  
     ethical standards in, 37  
     styles of, 118-124  
 Respondent, 192  
 Review article, 144  
 Review of related studies, 131, 162

## S

Sample, 192  
     approaches in the determination of, 193-194  
     determination of, 193  
 Sampling, 192, 195-198  
     defined, 192  
     types and subtypes of, 195-198  
 Sampling frame, 195  
 Saturation, 22  
 Scientific research, 17  
 Scientific sampling  
     *See* Probability sampling

Scope of the study, 90  
 Secondary sources, 23, 178  
 Semantic differential scale, 218  
 Semi-structured interview, 209  
 Sequential design, 19  
 Sensitivity, 232  
 Significance of the study, 63, 96-98  
 Simple random sampling, 195  
 Situation-producing question, 81  
 Situation-relating question, 80-81  
 Slovin's formula, 193  
 Specificity, 232  
 Speed, 232  
 Spot-checking, 250  
 Stability reliability  
     *See* Test-retest reliability  
 Statement of the problem, 78  
 Statistic, 192  
 Statistical inference, 192  
 Stratified random sampling, 196  
 Structured interview, 209  
 Structured observation, 215  
 Structured questionnaire, 216  
 Subject, 192  
 Subjective question, 217  
 Sub-question, 81  
     defined, 81  
     sample scripts of, 82  
 Sub-variable, 144  
 Survey, 177, 216  
 Summary of findings, 270-272  
 Systematic sampling, 197  
 Systematic skimming, 106  
     defined, 106  
     guidelines for, 106-107

## T

Target population, 192  
 Test-retest reliability, 231  
     defined, 231  
     weaknesses of, 231  
 Thematic analysis, 252-253  
 Theoretical framework, 7, 130-135  
     defined, 7, 130, 132  
     elements, 131  
     strategies in formulating, 132-133  
 Theory, 130  
 Time period, 92  
 Topic guide, 210-211  
 Turabian style, 122-124

## U

- Universal sampling, 193
- Unstructured interview, 209
- Unstructured observation, 215
- Unstructured questionnaire, 216

## V

- Validity, 228-230
  - defined, 228-229
  - types of, 229-230
- Variable, 90
  - characteristics of, 90-91
  - defined, 90
  - kinds of, 91

## Y

- Yes or No question, 217
