C & E Publishing, Inc.

2022

TABLE OF CONTENTS

PREFACE..... vii

UNIT 1

QUANTITATIVE RESEARCH: ITS DEFINITION, TYPES, PURPOSES, AND GOALS

CHAPTER 1 What is Quantitative Research? 2

CHAPTER 2 Classification of Variables..... 8

CHAPTER 3 Research Title..... 16

CHAPTER 4 The Background of the Study..... 29

CHAPTER 5 The Statement of the Problem..... 41

CHAPTER 6 The Scope and Delimitation and the Significance of the Study..... 53

UNIT 2

REVIEW OF LITERATURE

CHAPTER 7 The Review Process..... 66

CHAPTER 8 The Standard Citation and Referencing Styles 79

CHAPTER 9 Ethical Standards in Research Writing 88

CHAPTER 10 The Review of Related Literature..... 97

CHAPTER 11 The Review of Related Studies 113

CHAPTER 12 The Conceptual/Theoretical Framework 127

CHAPTER 13 The Hypothesis and Assumptions of the Study 139

CHAPTER 14 Definition of Terms..... 147

**UNIT
3****COLLECTING DATA**

CHAPTER 15	Quantitative Research Methodology.....	154
CHAPTER 16	Participants of the Study.....	167
CHAPTER 17	Instrument of the Study.....	181
CHAPTER 18	Validity and Reliability of the Instrument.....	193
CHAPTER 19	Statistical Treatment.....	203
CHAPTER 20	Tables and Graphs.....	219

**UNIT
4****REPORTING AND SHARING OF FINDINGS**

CHAPTER 21	Analysis and Interpretation of Data.....	230
CHAPTER 22	The Summary of Findings, Conclusions, and Recommendations	244

APPENDICES	A. Preparation of the Final Copy of a Quantitative Research Thesis ..	255
	B. Sample Title Page of a Thesis Proposal	260
	C. Evaluation Tool/Rubrics for Practical Research Proposal Defense	262
	D. Guide to the Practical Research Proposal Defense	265
	E. Evaluation Guide for the Research Paper	267
	F. Assessment of the Attributes of Test Papers	270
	G. Sample Checklist	271
	H. Sample Survey Questionnaire	272

GLOSSARY	277
-----------------------	-----

BIBLIOGRAPHY	281
---------------------------	-----

INDEX	288
--------------------	-----

INDEX

-P model, 134

A

Accessible population, 167
Accidental sampling
 See Convenience sampling
Analysis of data, 231
 considerations for, 231
 defined, 231
Analytical reading, 71
Annotations, 75
APA style referencing guide, 81-82
Area graph, 220-221
Assumptions of the study, 141
Authorship, 93
 forms of, 93
Average deviation, 206

B

Bar graph, 221
Beneficiary, 57-58
Bivariate study, 11
Block quote, 93

C

Calmorin's formula, 169-170
Categorical variables, 9
Chicago style referencing guide, 83-85
Chi-square test, 206-207
 defined, 206
 functions of, 206-207
Cluster sampling, 171
Coding question, 185
Coercion authorship, 93
Column graph, 221
Combination question, 185
Comparative design, 160
Comparative reading, 71
Completion question, 185
Complex hypothesis, 140

Comprehensibility, 196
Concept, 54
Conceptual definition, 148
Conceptual literature
 See Related literature
Conclusion, 249
Concurrent validity, 194
Construct validity, 194
Construct, 54
Content validity, 194
Continuous variable, 9
Convenience sampling, 173
Correlational design, 160-161
Covariate variables
 See Extraneous variable
Criterion variable, 10-11
Criterion-related validity, 194-195
 defined, 194
 types of, 194-195
Cross-sectional time orientation, 160

D

Data collection, 182
Data item
 See Variable
Data series, 220
Delimitation, 54
Denial of authorship, 93
Dependent variable, 10
Descriptive design, 160
Descriptive statistics, 204, 205-206
 common statistical tools of, 205-206
 defined, 204
Dichotomous variable, 9
Directional hypothesis, 140
Discrete variable, 9
Discussion of data, 231, 234
 considerations for, 234
 defined, 231

Dispersion
 See Variability
Documentary analysis, 182
Duplicate plagiarism, 92

E

Edwards Personal Preference Schedule, 184
Element, 168
Elementary reading, 71
EPPS
 See Edwards Personal Preference Schedule
Equivalent test
 See Criterion-related validity
Ethical writing, 89
Evaluative design, 161
Experimental design, 155-159
Experimental variable, 10
Experimenter effect, 157
Explanatory variable
 See Independent variable
External validity, 156, 157
 defined, 156
 threats to, 157
Extraneous variable, 10

F

Face validity, 194
Factor-isolating question, 44-45
Factor-relating question, 45
Focus group discussion, 182
Framework, 128
Frequency distribution, 205
F-test, 206

G

Ghost authorship, 93
Graph, 220-224
 defined, 220
 elements of, 223-224
 types of, 220-222

H

Hawthorne effect, 157
Highlighting, 75
History, 156
Honorary authorship, 93

Hypothesis, 139-141
 defined, 139
 kinds of, 140-141

I

Incidental sampling
 See Convenience sampling
Independent variable, 10
Indicator for the specific variable, 184
Indicator, 54
Inferential statistics, 204, 206-207
 common statistical tools of, 206-207
 defined, 204
Intellectual Property Code of the Philippines, 92
 Section 178, 92
Internal consistency test, 195-196
 defined, 195-196
 types of, 196
Internal validity, 156-157
 defined, 156
 threats to, 156-157
Interpretation of data, 231, 233
 defined, 231
 levels of, 233
Interval data, 204
Interval variables
 See Continuous variable
Intervening variable
 See Extraneous variable
Interview, 182-183
 defined, 182
 types of, 182-183
Interview schedule, 182
Introduction, 30-31
 defined, 30
 formulation of, 30-31
IPO model, 132
Item-total correlation test
 See Kuder-Richardson test
IV-DV model, 133

J

Judgmental sampling
 See Purposive sampling

K

Kuder-Richardson test, 196
 formula 20, 196

L

- Life history, 182
- Likert scale, 186
- Limitation, 54
- Line graph, 222
- Linearity, 197
- Literature review, 67-72, 99-100
 - defined, 67, 99
 - elements of, 99
 - preparing a, 68-73
 - purpose of, 67
 - writing, 99-100
- Logical validity
 - See Face validity
- Longitudinal time orientation, 160

M

- Major variable, 42, 98
- Manipulated variable
 - See Independent variable
- Maturation, 156
- Mean, 205
- Measure of central tendencies, 205
- Measure of variability, 206
- Measurement effect, 157
- Median, 205
- Mediating variable
 - See Extraneous variable
- Method of difference, 155
- Minnesota Multiphasic Personality Inventory, 184
- MLA style referencing guide, 82-83
- Mode, 205
- Mortality, 156
- MMPI
 - See Minnesota Multiphasic Personality Inventory
- Multiple regression analysis, 206
- Mutual support authorship, 93

N

- Nominal data, 204
- Nominal variable, 9
- Non-directional hypothesis, 140
- Non-equivalent controlled group design, 159
- Non-experimental design, 159-161
- Non-experimental variable, 10-11
- Non-parametric statistics, 204, 206-207
 - defined, 204
 - tests for, 206-207
- Non-probability sampling, 172-173
- Non-researchable question, 43

- Non-scientific sampling
 - See Non-probability sampling
- Note-taking, 74
- Null hypothesis, 141
- Numeric variable, 9

O

- Observation, 183
 - defined, 183
 - types of, 183
- Observation checklist
 - See Observation guide
- Observation guide, 183
- One-group pretest-posttest group design, 159
- One-shot case study, 159
- Operational definition, 148
- Ordinal data, 204
- Ordinal variables, 9

P

- Paradigm, 131-135
 - defined, 131
 - models of, 132-135
- Parameter, 168
- Parametric statistics, 204, 206
 - defined, 204
 - tests for, 206
- Paraphrasing, 93
- Participants of the study, 167
- PC model, 133
- Pearson product-moment coefficient of correlation, 206
- Peer-reviewed journal
 - See Refereed journal
- Percentage, 205
- Personality inventory, 183
- Phenomenon, 2-3
- Physiological measures, 183
- Pie graph, 222
- Plagiarism, 90, 91-93
 - acts of, 92
 - defined, 92
 - forms of, 90, 92
 - ways to avoid, 93
- Polychotomous variable, 10
- Polyvariate study, 11
- Population, 167-168
 - defined, 167
 - types of, 167-168
- Posttest-only controlled group design, 158

Precision, 196
Predicted variable
 See Dependent variable
Predictive validity, 195
Predictor variable, 10
Pre-experimental design, 159
 defined, 159
 types of, 159
Presentation of data, 220
Pretest-posttest controlled group design, 157-158
Probability sampling, 170-172
Projective technique, 184
Proportion, 205
Proposed Original Model, 135
Psychological tests, 183-184
Published works, 92
Purposive sampling, 173

Q

Quantitative research, 2-5
 advantages of, 3
 characteristics of, 3
 defined, 2
 disadvantages of, 3-4
 importance in different fields, 4-5
Quasi-experimental design, 158-159
 defined, 158
 types of, 159
Questionnaire, 184
Questions, 184-185
 types of, 184-185
 wordings of, 185
Quota sampling, 173
Quoting, 93

R

RA 8293
 See Intellectual Property Code of the
 Philippines
Range, 197, 206
Ratio data, 205
Reactivity, 195
Recognition question, 184
Recommendation, 250
Refereed journal, 99
Referencing, 93
Related literature, 97-100
 defined, 97
 tips in writing, 99-100
Related studies, 114-115

Reliability, 195-196
 defined, 195
 methods for establishment of, 195-196
Research hypothesis, 141
Research instrument, 155, 156, 182, 186
 characteristics of, 186
 scales used, 186
Research literature, 114
Research methodology, 154
 elements of, 155
Research problems, 18-21
 considerations in the formulation of, 19
 external criteria, 19
 internal criteria, 19
 sources of, 18
Research question, 44-47
 types of, 44-46
Research title, 17-18
Researchable question, 44
Response variable
 See Dependent variable
Retrospective time orientation, 160
Review article, 98
Rorschach Inkblot Test, 184
Rules on Copyright Ownership
 See Intellectual Property Code of the Philippines

S

Sample, 168-170
 defined, 168
 determining the size of, 168-170
Sampling, 170-173
 kinds of, 170-173
Scientific hypothesis
 See Research hypothesis
Scientific sampling
 See Simple random sampling
Scope and delimitation of study, 53-54
Selection bias, 156
Self-plagiarism, 90, 92
Semantic differential scale, 186
Semi-structured interview, 183
Sensitivity, 196
Significance of the study, 57-58
Simple hypothesis, 140
Simple linear regression analysis, 206
Simple random sampling, 170-171
Situation-producing question, 46
Situation-relating question, 45-46
Slovin's formula, 168-169
Solomon four-group design, 158

Spearman-Brown prophecy formula, 196
Specificity, 196
Speed, 196
Split half test, 196
Stability test
 See Test-retest
Standard deviation, 206
Statement of the problem, 42-44
 criteria for, 43
 defined, 42
 elements of, 42
Statistic, 168
Statistics, 204
 branches of, 204
 defined, 204
Stratified random sampling, 171
Structured interview, 182-183
Structured observation, 183
Structured questionnaire, 184
Subjective question, 185
Substantive hypothesis
 See Research hypothesis
Summary of findings, 244
Survey studies, 159-161
Systematic sampling, 171
Systematic skimming, 71

T

Table, 224-226
 defined, 224
 elements of, 224
 examples of, 225-226
Target population, 167
Test of goodness of fit, 206
Test of homogeneity, 206
Test of independence, 206-207
Testing, 157

Test-retest, 195
 defined, 195
 weaknesses of, 195
Thematic apperception test, 184
Theoretical framework, 128
Theory, 128
Time-series design, 159
True experimental design, 157-158
 defined, 157
 types of, 157-158
T-test, 206
Turabian style
 see Chicago style referencing guide

U

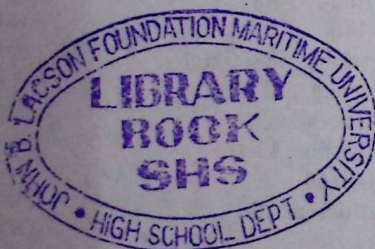

Univariate study, 11
Unstructured interview, 182
Unstructured observation, 183
Unstructured questionnaire, 184

V

Validity, 156, 193-195
 defined, 156, 193
 types of, 194-195
Variability, 206
Variable, 9-11, 54, 204-205
 classifications of, 9-11
 defined, 9, 54
 levels of measurement of, 204-205
Variance, 206

Z

Z-test, 206

9
3/23
