Abstract

This narrative research aimed to determine the percentage of gender who's answered the following question of Self- confidence of Senior High School Students of John B. Lacson Maritime University- Molo. Gathering of data we're randomly selected Senior High School Students. Statistical narrative was used, that is telling the stories that reside within quantitative information. This study found out that the SHS students of JBLFMU-Molo answered most " trusting yourself" in gaining a self confidence. In this study it will show how the students of JBLFMU-Molo gain their self-confidence regarding to their peers, family, friends and their studies.
