<b>Introduction</b>	<b>ix</b>	Responsibilities and liability of the carrier	<b>37</b>
<b>Acknowledgements</b>	<b>xi</b>	Passengers: carrier liability	38
<b>List of abbreviations</b>	<b>xiii</b>	Immunity of the carrier	38
<b>1 A ship Master's business</b>	<b>1</b>	Charter party and the Master	39
Master's handover documents	1	Clause definition	40
Certificate validation and issuing authorities	2	Commercial documentation	41
Classification of ships	2	Logistic support for marine commercial operations	43
Lloyd's Register (LR)	2	Agents and agency	43
Classification for existing ships	3	Commercial: cargo requirements	43
Classification for new tonnage	3	Introduction to general average	45
Types of survey	3	Average adjustment: example	46
Additional certificates for specific vessels	4	Port of refuge	46
Pollution controls	5	Certificate of Class/Interim Certificate of Class/Certificate of Seaworthiness	47
Tanker vessels	5	Noting protest	47
Liquid gas carriers	5	Extended protest	48
Chemical tankers	5	Marine insurance	48
Cargo record book	6	<b>3 Shipboard management</b>	<b>52</b>
Panama Canal Tonnage Certificate	6	The International Safety Management code	52
Suez Canal Special Tonnage Certificate	6	Crew (employment) agreements	55
Master's additional handover considerations	6	Shipboard safety	56
Special note: gas carriers and chemical tankers	6	The safety representative	57
Introduction to registration	14	The safety committee	57
Introduction to the Official Log Book	19	Shipboard authority	58
The Oil Record Book (ORB)	20	Port State Control	59
Official publications	21	Discipline on board	60
Cargo handling gear (Hatches and Lifting Plant Regulations)	21	The prevention of drug and alcohol abuse	64
Master's duties: ship's arrival/departure to and from port	21	<b>4 Navigation and communication practice</b>	<b>65</b>
Masters: reportable incidents	29	Introduction	65
Legal requirements of ship's Masters	29	Navigation	65
The Receiver of Wrecks	32	Equipment	65
The finder of wreck	35	Communications and GMDSS	65
Dangerous occurrences	35	Requirements for the carriage of radio equipment	67
Births and deaths	35	Ship identification transponders	67
<b>2 Commercial knowledge</b>	<b>36</b>	Global radio transponders	67
Introduction	36	Radar: additional use	69
Commercial familiarization	36	ECDIS	69
The ship as the carrier	36	Position fixing	71

Parallel indexing	72	Engine room records	148
Fatigue	76	Plant monitoring: unmanned machinery space	149
Pilotage and the marine pilot	79	Mode of control	149
Vessel traffic service (VTS)	84	Emergency fuel shut-off	150
Ice seamanship	86	Steam turbines	151
Ice navigation: dangers and precautions	87	Engine room operations and maintenance	152
The work of the ice breaker	90	Engineering duties	154
<b>5 Special maritime operations</b>	<b>91</b>	Control and monitoring of machinery and plant systems	154
Introduction	91	On-board sewage systems	155
Dry docking: a Master's role	91	Incinerator operation	157
Salvage activities	94	Permit to work systems	157
The Master's role and salvage	94	<b>8 Offshore seamanship</b>	<b>159</b>
Removal of cargo	99	Introduction	159
Salvage of cargo	101	Passage plans through offshore regions	159
Towing and salvage	101	Watchkeeping offshore	160
The towage contract	108	Offshore installations	160
Marine pollution	108	Operations of offshore supply vessels (OSV)	161
Shipboard oil pollution emergency plan (SOPEP)	109	Requirements for standby vessels (SBV)	163
The work of the Marine Pollution Control Unit (MPCU)	112	Anchor handling	163
Merchant shipping regulations (prevention of pollution)	113	Offshore specialized traffic	167
The Oil Record Book	113	Tanker operations	169
Future changes towards tanker safety	113	Mooring operations	169
Certificates and documents summary	113	Cable laying activity	172
Bunkering procedures	114	<b>9 SOLAS: revisions, amendments and developments</b>	<b>181</b>
Management of garbage	115	Introduction	181
Heavy lift operations	116	Evacuation and abandonment	181
Merchant ship entry into war zones	117	Special requirements for personnel on ro-ro passenger vessels	185
The risk of piracy	120	Lifeboat release systems: 'on load, off load'	187
<b>6 Ship handling and manoeuvring aids</b>	<b>124</b>	Recovery operations	191
Introduction	124	The role of the helicopter	195
Factors affecting ship performance	124	Merchant ship search and rescue operations	199
Ship trials and manoeuvring data	124	The IAMSAR manuals	200
Deck preparations for arrival/departure	125	Master's orders on route to an SAR incident	200
Ship handling: equipment and control	126	The duties of the On-Scene Co-ordinator (OSC)	201
Arguments for ducted propellers	130	IAMSAR case study	201
Azimuth thrusters (steerable thrusters, omnidirectional or azipods)	132	<b>10 Marine training</b>	<b>204</b>
Use of tugs in pilotage operations	134	Introduction	204
The use of anchors on large vessels	136	The training manual	204
Wheelover points	139	Shoreside supportive training	204
Squat	139	Practical training with external agencies	205
Manoeuvring large vessels	140	Training incident report	206
The disabled large tanker	143	Practical training: semi-controlled conditions	207
High speed craft	145	STCW '95 certificate requirements	208
<b>7 Engineering knowledge for masters</b>	<b>147</b>	Full mission simulation for marine students	209
Introduction	147	The international standards of training, certification and watchkeeping (STCW)	209
Main engine power	147		

<b>Appendix Ship Master's self-examiner</b>	<b>213</b>	Shiphandling and manoeuvring	220
Masters: legal	213	Miscellaneous	224
Ship Master's business	214		
Emergency procedures	215	<b>Index</b>	<b>231</b>
